4.021.000	04-May-04	Version 21 released
4.020.039	04-May-04	CSS handling in HTML options corrected, multiple simultanneous Save actions prevented.
4.020.038	01-May-04	A not sailed race caused an incomplete export to a database. FIXED
4.020.037	27-Apr-04	Male/Female selection did not work in subfleets. FIXED
4.020.036	18-Apr-04	Minor corrections in Triple Number calcs
4.020.035	14-Apr-04	Triple Number wind values have been changed to the values for 2005. Defining authority is NoordZeeClub, the Dutch Offshore Yacht Class Association.
4.020.034	14-Apr-04	HTML output. Backgrounds can now be transparent.
4.020.033	14-Apr-04	HTML output. Support for external CSS stylesheets has been added.

Version	Date	Description
4.020.032	08-Apr-04	Beta Triple Number 3 course types. Restricted release
4.020.031	03-Apr-04	Some reports did not work with option HTML Single Page output. FIXED
4.020.030	25-Mar-04	On opening of a ZW-file, the internal Fleetnumbers will be reassigned in alphabetical fleetname sequence. This has some impact on manual prepared input files.
4.020.029	23-Mar-04	Importing of Finishlists for handicapclasses did not import the finish times. CORRECTED.
4.020.028	03-Feb-04	Minor output improvements
4.020.027	03-Feb-04	Minor translation fixes for the Italian language
4.020.026	27-Jan-04	Minor improvements, while handling a new file with automatic creation of fleets.
4.020.025	22-Jan-04	Flags on Flash screen were not always shown correctly. FIXED
4.020.024	21-Jan-04	Starting licences can now be monitored against a licence data file. The licence data file has to be supplied by the Nath Auth. ZW has to be adapted for the each format. The Italian format (tesseract.txt) has been implemented.
4.020.023	21-Jan-04	Aboard status in crew listings has been corrected
4.020.022	25-Dec-03	Action points are now handled on a separate tab of the competitor's window. No functional change.
4.020.021	24-Dec-03	Minor improvements in handling of flag on Flash screen
4.020.020	21-Dec-03	Changes to Flash screen to allow for more localised versions.
4.020.019	15-Dec-03	A Spanish translation of ZW has been added. Many thanks to Juan Alvaro Parabela Amer.
4.020.018	03-Nov-03	Version 4.020.015 introduced an error. Finishing places were reported as corrected time minutes. Scores were not effected. Error has been corrected.
4.020.017	31-Oct-03	HTML template restrictions have been relaxed. Output of MS Frontpage is now acceptable as a template.
4.020.016	29-Oct-03	The use of Ctrl-C, Ctrl-P and Ctrl-X (Copy, Paste and Cut) has been (re-) enabled in the Competitors screen.
4.020.015	29-Oct-03	Subfleets: An option has been added to recalculate scores, based on only the selected competitors.
4.020.014	28-Oct-03	Subfleet conditions could not be changed. FIXED
4.020.013	24-Oct-03	In the windows, Competitors and Poule Schedule, changes of fleet are now protected by a warning message. This will minimize the risk of losing results.
4.020.012	24-Oct-03	The competitors window will now prompt, you for automatic addition of classes, fleets and countries.
4.020.011	22-Oct-03	Early closing of the graphics browser on slower computers, caused an abnormal termination. FIXED
4.020.010	22-Oct-03	Background databases are now by default opened in RO-mode
4.020.009	15-Oct-03	Finishlists for subfleets are now prepared without recalculation.
4.020.008	09-Oct-03	After version 4.019.15, Handicap and Competitor listings could not be printed in no race results were entered. (Bypass: Enter a dummy result in the first race). FIXED

Version	Date	Description
4.020.007	09-Oct-03	Some minor improvements to handle single quotes in names.
4.020.006	29-Sep-03	Subfleet: Use of empty conditions sometimes resulted in a incorrect treatment of other conditions. FIXED.
4.020.005	29-Sep-03	Subfleets: Multiple conditions on a date of birth field are now handled correctly.
4.020.004	29-Sep-03	Subfleet results are now produced without recalculation,
4.020.003	29-Sep-03	Use of subfleets sometimes resulted in a lack of space error. FIXED
4.020.002	20-Sep-03	Minor improvement in enabled menu options in case of a new ZW file.
4.020.001	20-Sep-03	By default, fleets will now be automatically created for new classes.
4.020.000	18-Sep-03	Version 4.020 released.
4.019.018	18-Sep-03	Import of competitors now accepts date of birth as a 8 digit number like 19920131, or as a 6 digit number like 920131, or as any Microsoft formatted date.
4.019.017	17-Sep-03	Minor improvements in handling team results.
4.019.016	17-Sep-03	Two nasty little errors removed. Subscript out of range after Adding classes or countries in a new ZW file.
4.019.015	12-Sep-03	A Press listing, with minimal content, has been added for press briefings
4.019.014	11-Sep-03	Output option have been added for Country and Birthdate.
4.019.013	11-Sep-03	Handling of logos in the output heading window has been improved / corrected.
4.019.012	09-Sep-03	Duplicate sailnumbers could be created by changing a number to an already existing number. FIXED
4.019.011	05-Sep-03	A fatal error in Fleets has been corrected.
4.019.010	01-Sep-03	A fatal error in Poule Schedule has been corrected.
4.019.009	29-Aug-03	Fonttype changes in Headings were not always saved. FIXED>
4.019.008	29-Aug-03	On the Finish window, the starttime and courselength were not correctly displayed for the recently added handicaps. FIXED
4.019.007	29-Aug-03	Some handicap listings of recently added handicaps were not sorted on the handicap figure. FIXED
4.019.006	28-Aug-03	Addition of a crew module. The module is not yet complete. Crew listings will be added in the immediate future. This module will allow support for offshore races and/or verification of sailor licenses.
4.019.005	28-Aug-03	After an intermediate save operation, you where not always prompted to save the data, while exiting the program. FIXED
4.019.004	27-Aug-03	Import of Birthdate failed. Fixed
4.019.003	22-Jul-03	ERROR: In the unlikely case where a competitor with a redress, scoring penalty or similar is removed, the redress or penalty will be randomly assigned to another competitor. FIXED
4.019.002	24-Jun-03	More sound warnings in cases where a result already exists.
4.019.001	23-Jun-03	Handicap listings have been corrected for formatting and missing content.
4.019.000	14-Jun-03	Version 4.019 released.
4.018.024	11-Jun-03	Fixed a problem with the calc of TripleNumber handicaps.

Version	Date	Description
4.018.023	08-Jun-03	Fixed a problem with Dayresults and HTML output per page.
4.018.022	03-Jun-03	Handicap list did not print if one of the selected fleets did not contain competitors. FIXED
4.018.021	02-Jun-03	ToT-O handicap in window Search IMS/ORC has been corrected
4.018.020	31-May-03	Fontsizes in HTML output options were not functional. FIXED
4.018.019	24-May-03	Minor improvement User interface of Fleets window. PgDn/PgUp
4.018.014	24-May-03	Action check list can now also be saved as a notepad file
4.018.013	24-May-03	Intermittent error during Save, in cases where logos are used. FIXED.
4.018.012	19-May-03	Minor error in heading Action list. FIXED A German translation of ZW has been added. Many thanks to Rüdiger Schuchardt for his work.
4.018.011	14-May-03	The Dutch version 4.018 of ZW called for the English Help screens. FIXED.
4.018.010	07-May-03	An option to show IMS/ORC VPP data has been added in the competitor's handicap screen.
4.018.009	05-May-03	Correct minor error in Make Schedule screen
4.018.008	29-Apr-03	Correct minor error in handling of Boattype in screen Competitors
4.018.007	29-Apr-03	Correct destination titles in Action Points
4.018.006	29-Apr-03	IMS/ORC handicaps only. Error occurred during "Reload of IMS/ORC data" and 'Calc of TripleNumber handicaps'. Symptom: Fileid was reset to 0. FIXED.
4.018.005	19-Apr-03	Import of name of helmsman was not possible. FIXED

4.017.011	06-Oct-02	Finishlist headings for handicap classes have been adjusted for MS-Word and HTML output.
4.017.010	03-Oct-02	Not existing files will be removed from the file menu
4.017.009	03-Oct-02	If no printer is installed in Windows, ZW will issue a warning iso aborting.
4.017.008	01-Oct-02	Long file path's are now supported upto 255 characters.
4.017.007	26-Sep-02	In Competitor and Finish windows, audible clicks have been eliminated in those cases where the <Enter> key was used.
4.017.006	05-Sep-02	In some cases discards were not considered. This happened when the number of races was not identical for all fleets. FIXED
4.017.005	05-Sep-02	In very rare cases, the tie calculation was performed considering races that were excluded from the partial results. (races which were excluded in the Fleets window) FIXED
4.017.004	05-Sep-02	Number of discards will no be defaulted to zero. (was 1 to conform with ISAF RRS, but 0 will avoid confusion with the users)
4.017.003	05-Sep-02	A standard printer font will be automatically set when ZW is being used for the first time.
4.017.002	05-Sep-02	Listing on sailno can now also be requested by fleet
4.017.001	05-Sep-02	English warning message for duplicate sailno's has been revised to fit window size.
4.017.000	09-Jul-02	Version 4.017 released.
4.016.001	09-Jul-02	While using the Make Schedule with "Fixed assignments to starting fleets", the number of sailors for scoring with dnf, dsq, etc was set to an erroneous (too high) value. Error fixed.
4.016.000	01-Jul-02	Version 4.016 released.
4.015.006	01-Jul-02	Support has been added for new style of handling discards and tiebreaking in qualifier and finales regattas. This will most probably be a new ISAF ruling.
4.015.005	27-Jun-02	DateTimeStamps can now be clearly identified as timestamps. On printouts the timestamp will be printed in the footer.
4.015.004	22-Jun-02	Finishlistings can now be produced with delta times or with formula and factors.
4.015.003	20-Jun-02	Tables in the MS Word output are now properly formatted.
4.015.002	20-Jun-02	Including many and lengthy items caused an error. This problem has been fixed.
4.015.001	20-Jun-02	Finishlistings can now be merged into one listing.
4.015.000	10-Jun-02	Version 4.015 released.
4.014.001	10-Jun-02	Tie breaking in version 4.014 contains an error, while applying A8.1. Error fixed.
4.014.000	04-Jun-02	Version 4.014 released.

Version	Date	Description
4.013.013	04-Jun-02	ZW has been adapted for the ISAF rule change per 1 Jun 2002. This change effects the tiebreaking.
4.013.012	04-Jun-02	A warning will be issued if a required courselength was not specified for handicap classes.
4.013.011	01-Jun-02	For handicap classes a warning is issued if the starttime has not been specified.
4.013.010	01-Jun-02	Finishlist now displays for handicap classes, the applicable formula and coefficients.
4.013.009	26-May-02	Stored Fileid will now be reset after initiating a new ZW file.
4.013.008	25-May-02	An option has been added to exclude rule A8.2
4.013.007	25-May-02	Tie breaker is now also supporting 2-tier ties.
4.013.006	24-May-02	Support for pre 2001 Rules has been removed.
4.013.005	14-May-02	Error during import of handicap races while adjusting for differences in starttime, has been corrected.
4.013.004	14-May-02	Action check list now sorted on sailno
4.013.003	09-May-02	An error while importing finishlists with starttime adjustments has been corrected.
4.013.002	02-May-02	ZW now supports spaces in long filenames
4.013.001	30-Apr-02	Hang after using button Test in HTML Output Options resolved
4.013.000	28-Apr-02	Version 4.013 released.
4.012.017	28-Apr-02	Base course description and base wind loading changed for Single Number
4.012.016	28-Apr-02	Single Number handicap base changed from 600 to 675
4.012.015	28-Apr-02	Age allowance correction removed. Note: Age allowance is now standard included in the base RMS data.
4.012.014	26-Apr-02	Several changes have been made to improve the portability of ZW-files
4.012.013	31-Mar-02	Handling of duplicate sailno's listing has been improved.
4.012.012	31-Mar-02	Help has been added for the Birthdate field in the Competitor screen.
4.012.011	31-Mar-02	Club has been added as one of the output options.
4.012.010	25-Mar-02	Competitors. An error with Male and Female indication in the English version was fixed.
4.012.009	25-Mar-02	Save As. A problem, occurring under very specific conditions, was fixed.
4.012.008	25-Mar-02	Subfleets. If an attribute was used more than once in the selection criteria, only one of these criteria was processed correctly. Fixed.
4.012.007	17-Mar-02	Control in Competitor window has been improved.
4.012.006	17-Mar-02	One competitor was not properly handled during Make Schedule In this release. Fixed
4.012.005	17-Mar-02	ZW could be aborted by pressing key <Esc> while showing a page in output preview on screen. Fixed
4.012.004	17-Mar-02	Import functions did not function in this release. Fixed
4.012.003	04-Mar-02	Class names and Country codes could no longer be changed. Fixed.

Version	Date	Description
4.012.002	02-Mar-02	If handicap ORC-ToT is selected, the actual used handicap might sometimes be in error. Fixed
4.012.001	20-Feb-02	ActionNext button on Competitors window caused an error when no competitors were available. Fixed.
4.012.000	05-Feb-102	Version 4.012 released.
4.011.015	02-Feb-02	Settings for Competitor window are now stored in the ZW-files.
4.011.014	02-Feb-02	Selections can now be made with subfleets.
4.011.013	22-Jan-02	Files will be associated with ZW. Double clicking on a file will start ZW.
4.011.012	22-Jan-02	ZW will now remember the used language.
4.011.011	21-Jan-02	Special results like rdg or scp are longer shown in Italics, but marked wit an * (asterix) as a footnote reference.
4.011.010	13-Jan-02	Error in program init revisited and hopefully resolved. This caused an abort in windows Classes and Countries
4.011.009	31-Dec-01	Separate HTML output page did not function. Corrected.
4.011.008	24-Dec-01	Error in program init resolved. This caused an abort in windows Classes and Countries
4.011.007	15-Dec-01	Enter Results window, No message was generated in case of an unknown competitor. Corrected.
4.011.006	10-Dec-01	English version did not start from Splash window. Corrected.
4.011.005	19-Nov-01	Finish screen now offers an option to immediately show and print calculated results (finishlists)
4.011.004	14-Nov-01	Finish window will no longer open spontaneously.
4.011.003	12-Nov-01	Open check list items can now be searched on the Competitors window.
4.011.002	11-Nov-01	Delete, rename, copy and move file options have been removed from the file menu
4.011.001	10-Nov-01	32 bit version established. No functional changes. Filenames can now be longer than 8 characters.
4.010.014	05-Nov-01	Bug with new fleets in window Fleets has been corrected.
4.010.013	31-Oct-01	Printing sometimes occurred at random while previewing output. Fixed.
4.010.012	27-Oct-01	Minor bugs removed from Action Checklist
4.010.011	23-Oct-01	Layout correction to special reports for Single Number Calculations, Make Schedule and Split for Finals.
4.010.010	20-Oct-01	IMS/ORC data can now also be searched by boatname.
4.010.009	20-Oct-01	Action checklist often showed only a blank screen. Fixed.
4.010.008	20-Oct-01	Requesting multiple Finishlists resulted in only one shown on screen. Fixed.
4.010.007	18-Oct-01	Corrections have been made in the RMS import for IMS/ORC data. Nome data was not imported due to incorrect interpretation of the timestamp.
4.010.006	18-Oct-01	Screen for Fleet input has been improved to avoid unsolicited changes in fleet names.
4.010.005	18-Oct-01	Results can now be printed with only the Boatname.

Version	Date	Description

4.009.002	21-Sep-01	Listings. Print button now locked after starting a printout. This will avoid clashes during output preparation.
4.009.001	20-Sep-01	Naming of HTML output files corrected. No functional changes.
4.009.000	18-Sep-01	Version 4.009 released.
4.008.011	12-Sep-01	I.s.o sailno you may now also use Helmsman name, Boatname, boattype or parts thereof, to find a specific boat in the windows: Competitors, Enter results and Poule Schedule.
4.008.010	11-Sep-01	5 most recent ZW files are now available under menu option File
4.008.009	10-Sep-01	In special cases you can now refer to sailno by using the last 3 or 4 digits. This is specifically useful for causes with long sailno's, such as Lasers, where often the last 3 or 4 digits form a unique number.
4.008.008	09-Sep-01	In 4.006.006, the option in window "Split for finales", to include or to exclude the selection or round-robin results in the final results, was introduced. The option did not work and has now been fixed.
4.008.007	09-Sep-01	Duplicate Sailno's now also includes listings for Duplicates in last 3 and 4 digits of Sailno.
4.008.006	05-Sep-01	Suppress generation of redundant Double Quotation Marks in HTML output.
4.008.005	03-Sep-91	Action checklist for open issues created
4.008.004	02-Sep-01	Click on Enter Results (Finish) causes program to loop. Fixed
4.008.003	02-Sep-01	Help topic for Team races has been added
4.008.002	01-Sep-01	Cosmetic changes in Listings while requesting a Competitorslisting.
4.008.001	31-Aug-01	Fixing a sporadic file save error.
4.008.000	30-Aug-01	Version 4.008 released.
4.007.009	30-Aug-01	English Help file has been included
4.007.008	16-Aug-01	HTML output for team races improved.
4.007.007	16-Aug-01	Impact of scoring penalties is more clearly shown on results
4.007.006	16-Aug-01	HTML output corrected. On some browser HTML output could not be shown since 4.007.000

Version	Date	Description
4.007.005	16-Aug-01	DSQ penalty scores can now exceed the maximum score based on the number of competitors plus one. To use this click OTH on the finish window and use code DSQ.
4.007.004	07-Aug-01	Handicap did not always display results correctly, if a Finish window was used without making changes, Corrected.
4.007.003	05-Aug-01	Superfluous instances at taskbar eliminated.
4.007.002	05-Aug-01	Language question will no longer be repeated.
4.007.001	05-Aug-01	Help files further enhanced to be context sensitive. Sorry no English yet.
4.007.000	28-Jul-01	Version 4.007 released.
4.006.006	28-Jul-01	Window "Split for finales" now has the option to include or to exclude the selection or round-robin results in the finale results.
4.006.005	27-Jul-01	In window "Output Type and Name", filename and location could not be selected, if Word or HTML output was selected. Fixed.
4.006.004	25-Jul-01	Minor change on HTML output for long series. Cosmetic.
4.006.003	20-Jul-01	Minor changes on General window. No functional changes
4.006.002	20-Jul-01	Changed OK buttons to EXIT buttons on many windows
4.006.001	13-Jul-01	HTML output. Internal formatting of HTML output has changed. Fontsizes have been decreased to suit limited output display sizes. The HTML file now uses styles and classes for easy adaptation to site styles.
4.006.000	12-Jul-01	Version 4.006 released.
4.005.006	12-Jul-01	Help files have been updated. Sorry no English yet. Sorry not all subjects covered.
4.005.005	08-Jul-01	In recent versions it was not possible to insert a finishing boat between two other boats. Handling decimal points (and/or comma's) has been improved.
4.005.004	05-Jul-01	Sometimes the export only exported data from only one fleet. Corrected.
4.005.003	04-Jul-01	Minor error in Word output corrected.
4.005.002	04-Jul-01	In some cases the Sailno combobox on the Finish window remains open. Fixed
4.005.001	04-Jul-01	English text in Make Start Schedule corrected.
4.005.000	02-Jul-01	Version 4.005 released.
4.004.002	02-Jul-01	Tiebreaker will not work correctly in all cases due to calculation inaccuracies. Total scores are rounded to the nearest 0.001. This solves the problem.
4.004.001	28-Jun-01	Corrections made on Poule schedule for 4 starts on 2 courses
4.004.000	25-Jun-01	Version 4.004 released.
4.003.007	25-Jun-01	IMS/ORC. A modified course description and modified wind profiles will now be preserved in the ZW data file.
4.003.006	17-Jun-01	ZW suggest a finish time for One-Design classes when a result for a One-Design is entered on a active Handicap class finish window. Corrected.
4.003.005	23-Jun-01	Files in the ZW Work directory will no longer be deleted, when ZW is closed. However all old work files will be cleared at the start of a new SW session.
4.003.004	22-Jun-01	Poule schedule for 4 starts on 2 courses added.
